

# Prescribing Algorithm for Pain in the DYING PHASE using DIAMORPHINE SC for injections

#### Please note there is also a MORPHINE SULPHATE version of this algorithm

## **Version History**

| Vertical Filescopy |           |   |  |  |
|--------------------|-----------|---|--|--|
| Version            | Date      | Summary of Change/Process                                 |  |  |
| 1.0                | 2008      | Agreed by SPAGG   |  |  |
| 1.1                | 03/11     | Circulated to Jackie Dominey, John Speakman and Diana     |  |  |
|                    |           | Webb  |  |  |
| 1.2                | June      | Updated by John Speakman and circulated to SPAGG and      |  |  |
|                    | 2011      | Network Site Specific Group for reviewing                 |  |  |
| 1.3                | July 2011 | Circulated to Supportive and Palliative Care Network Site |  |  |
|                    |           | Specific Group for final review and comments              |  |  |
| 1.4                | 18.07.11  | With comments from circulation and for submission to the  |  |  |
|                    |           | Guidelines Sub Group                                      |  |  |
| 2.0                | 03.08.11  | Reviewed and endorsed by Guidelines Sub Group             |  |  |

| Date Approved by Network Governance | August 2011 |
|-------------------------------------|-------------|
|                                     | ·           |
| Date for Review                     | August 2014 |

#### **Scope**

This is for use by professionals in all healthcare settings caring for patients in pain during the dying phase: using **diamorphine SC**.

### Key points for consideration

- This algorithm should be considered in conjunction with other Network agreed guidance relating to the care of patients in the dying phase.
- If the patient is not in the dying phase then please consult the West Midlands Guidelines for symptom control in palliative care and follow the WHO analgesic ladder.
- If the patient has a Fentanyl patch, please refer to 'Guidance on the Prescribing and use of Transdermal Fentanyl Patches in the Dying Phase' at: (<a href="http://www.birminghamcancer.nhs.uk/staff/clinical-guidelines/supportive-and-palliative-care">http://www.birminghamcancer.nhs.uk/staff/clinical-guidelines/supportive-and-palliative-care</a>).

#### **ENDORSED BY THE GOVERNANCE COMMITTEE**

- Patients should be assessed for reversible causes of pain and discomfort, for example full bladder / constipation.
- If patients are not settling / comfortable after the given time period then further help can be sought from West Midlands Palliative Care Physicians Guidance or other Network guidelines found at the link below, alternatively contact the out of hours palliative care on call.
  <a href="http://www.birminghamcancer.nhs.uk/staff/clinical-guidelines/supportive-and-palliative-care">http://www.birminghamcancer.nhs.uk/staff/clinical-guidelines/supportive-and-palliative-care</a>
- Contact details for supportive and palliative care can be found in the Network supportive and palliative care directory located here: <a href="http://www.birminghamcancer.nhs.uk/staff/supportive-and-palliative-care">http://www.birminghamcancer.nhs.uk/staff/supportive-and-palliative-care</a>
